State Electrical Board
Mark E. Browne
Program Director

Attention: Colorado Electrical Contractors

VALUATION BASED PERMIT STRUCTURE CHANGE EFFECTIVE OCTOBER 1, 2011

Beginning October 1, 2011, valuation based permits will be issued under a new rate calculation.

For all valuation based permits, the base fee will be \$100 for projects worth less than \$2,000. The permit fee for all other projects will be 1% (\$10 per \$1,000 of the valuation or fraction thereof) plus \$100. Re-inspection fees will be \$50. The permit application process remains unchanged.

Residential fees are unchanged.

As an agency that is required to cover its expenditures with revenues, a change in permit structure is necessary due to recent analysis of permit revenue. The new permit structure has been streamlined to make it easier for you to calculate permit fees.

Please see the Colorado State Electrical Board website at www.dora.state.co.us/electrical for more information along with the [Frequently Asked Questions](#) page.

P.S. Don't forget to renew your Electrical Contractor registration before the end of the renewal grace period!
