

TRICARE Retiree Dental Program

Uniformed services retirees and their spouses are eligible for dental coverage through the enhanced TRICARE Retiree Dental Program. The program provides coverage for most commonly needed dental services, including preventive services, crowns, bridges, dentures and orthodontics.

The dental coverage is through Delta Dental, and operates through preferred provider option, which means enrollees can see any dentist but will have lower out of pocket costs if network dentists are used.

Rates vary by region, from \$21-\$34 a month for single coverage, and \$40-\$65 a month for two people. Enrollees must commit to stay in the plan for at least 24 months.

Enrollment can be done online with a credit card at www.ddpdelta.org or on the phone at 1-888-838-8737.
