Mr. Melamed: I'm glad to hear you plan to attend and look forward to learning more about California and your Company. If you have any additional written materials that you believe would educate the Commission and Staff here in Colorado, please bring them with you so that we can include them in our record of the proceeding. I expect that Skip Arnold from Energy Outreach Colorado will also attend the meeting and you may want to visit with him (if you haven't already) prior to the meeting. I also forwarded your message to two staff members working on revising the Commission's renewable portoflio standard rules.

**Subject:** Incentive Program for MultiFamily Affordable Solar Housing

Hello Geri,

Leslie Glustrom suggested I get in touch with you. My company, VisionSun Design is a solar consulting that works with housing authorities to bring the economic and environmental benefits of solar energy to low income/affordable housing. I plan on participating in the December 2, 2008 Workshop on Customer Incentive policies ( Decision No. C08-1198 ). I would like to introduce into the discussion California's recently enacted solar incentive program for MultiFamily Affordable Solar Housing (MASH). [http://docs.cpuc.ca.gov/Published/News\\_release/92316.htm](http://docs.cpuc.ca.gov/Published/News_release/92316.htm) If appropriate, I would like to set up a time with you prior to the workshop to discuss the details of the program and it's relevance to Colorado.

Thank you,  
Paul
