**Discovery Request Trinchera Ranch8-6**

Does the estimated cost of the project referred to in the previous question include the estimated ongoing operating and maintenance (“O&M”) costs associated with the project? If no, please explain why the Company has not estimated such O&M costs. If yes, please provide the estimated O&M costs including all supporting data relied on by the Company in estimating the O&M costs.

**RESPONSE:**

Public Service objects to this data request to the extent the information sought is irrelevant and the data request is not reasonably calculated to lead to the discovery of admissible evidence. Notwithstanding and without waiving this objection, Public Service states as follows: The estimated project costs are capital investment costs only to site, design, procure material/equipment and construct the project. There are no operating and maintenance (O&M) costs identified or required for the construction of the project. The estimated project costs do not include any ongoing O&M costs associated with the project after it is completed.
