5. Lines 12-15 on page 15 of Ms. Korbe's Rebuttal Testimony currently read, in part, as follows:

Since the final alignment for the Project has not yet been determined, no one, including Mr. Pike, knows for certain whether any of these properties will be crossed by the Project. It is my understanding that at this point there are no alternatives under consideration that cross known existing conservation easements.

4. Lines 12-15 on page 15 of Ms. Korbe's Rebuttal Testimony should be corrected to read as follows (new text is underlined):

Since the final alignment for the Project has not yet been determined, no one, including Mr. Pike, knows for certain whether any of these properties will be crossed by the Project. One of the alternative route segments on the Calumet to Comanche portion of the project did cross a conservation easement; however, in subsequent routing activities, the segment was adjusted to avoid the conservation easement. It is my understanding that at this point there are no alternatives under consideration that cross known existing conservation easements.
