I. BY THE COMMISSION

A. Discussion

1. On October 1, 2021, in Decision No. C21-0610, the Colorado Public Utilities Commission (Commission) issued a Notice of Proposed Rulemaking (NOPR) to amend the Commission's Rules Regulating Gas Utilities, 4 *Code of Colorado Regulations* (CCR) 723-4 (Gas Rules). The proposed amendments would add to as well as revise the existing provisions of the Commission's Gas Rules in seven areas: (1) the General Provision rules at 4 CCR 723-4-4000 *et seq.*; (2) the Operating Authority rules at 4 CCR 723-4-4102; (3) the Facilities rules at 4 CCR 723-4-4210 (Line Extension Rule); (4) the rules governing calculation of Greenhouse Gas Emissions (Greenhouse Gas Emission Rules) at 4 CCR 723-4-4526 *et seq.*; (5) the rules governing Gas Infrastructure Planning at 4 CCR 723-4-4550 *et seq.* (GIP Rules); (6) the rules governing Clean Heat Plan at 4 CCR 723-4-4725 *et seq.* (Clean Heat Plan Rules); and (7) the rules governing Demand Side Management at 4 CCR 723-4-4650 *et seq.* (DSM Rules).

2. By Decision No. C22-0427, mailed on July 22, 2022, the Commission issued an Interim Decision and accompanying updated redlined rule provisions (Revised Redline) and scheduled a continued rulemaking hearing on August 9, 2022 and September 19, 2022.

3. This Decision gives guidance to the prospective participants in the public comment hearing scheduled for September 19, 2022 beginning at 9:00 a.m.

4. Participants may organize their oral comments in the manner and scope they find appropriate. However, the Commission anticipates tentatively organizing the discussion in the following matter. We anticipate this organization will assist in furthering commenter dialogue, such that the discussions may best add to the robust record in this matter. The Commission will move through topics in this order, but will begin the next topic area once completed with the last (*i.e.*, if the first hour of public comment ends early, we will move to the discussion regarding line extensions when complete).
