**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF COLORADO**

DOCKET NO. 04M-435T

IN THE MATTER OF THE INVESTIGATION OF COMPETITION IN COLORADO'S  
TELECOMMUNICATIONS MARKET.

---

**ORDER OPENING DOCKET AND REQUIRING  
RESPONSES TO SURVEY ON COMPETITION**

---

Mailed Date: September 1, 2004

Adopted Date: August 18, 2004

**I. BY THE COMMISSION**

**A. Statement**

1. On July 21, 2004, Qwest Corporation "Qwest" submitted its application for reclassification of certain retail services and products from Part 2 (C.R.S. 40-15-201 *et seq.*) to Part 3 (C.R.S. 40-15-301 *et seq.*), pursuant to C.R.S. 40-15-207, and for the deregulation of Commission oversight of all retail services and products pursuant to C.R.S. 40-15-305, except for Basic Emergency Service, N11 Service and Switched Access Charges. Qwest stated in the application that it was seeking deregulation of Commission oversight of all retail services, including primary lines, additional lines, IntraLATA and InterLATA exchange services, bundled and packaged services, features, operator services necessary for the provision of basic local exchange service, tariffed and customer-specific contracts, public access lines (PAL), and analog private line with a capacity of less than 24 voice grade circuits. On August 10, 2004, because it was unable to comply with the notice provisions set forth in the applicable rules, Qwest

withdrew its application. Based upon Qwest's withdrawal, the Commission is closing that application docket.

2. In its request to withdraw, however, Qwest notified the Commission that it intends to refile its application in the near future. Therefore, in preparation for that refiling, we open this docket for the purpose of gathering certain information regarding the state of competition in regulated telecommunications markets in Colorado. Information the Commission now seeks to gather relates to various aspects of the telecommunications markets that are relevant to the question of effective competition for those products and services regulated by the Commission. We anticipate that this information will assist the Commission and interested parties in the upcoming Qwest application for reclassification and deregulation.

3. We append to this order (as Attachment A) a survey directed to the telecommunications providers subject to the Commission's jurisdiction. Those companies listed on Attachment B--these are entities subject to the Commission's regulatory jurisdiction--are directed to submit responses (in this docket) to the survey questions within 21 business days of the effective date of this order.

4. Commission Staff is authorized to review responses to ensure that each company has answered survey questions adequately. If Staff determines that additional or supplemental responses are necessary and is unable to informally resolve disputes with the companies, Staff may file a motion to compel responses or supplemental responses in this docket. Such motions shall be served upon any company with whom Staff has a dispute. Any company so served may file a response in this docket to Staff's motion to compel within 7 business days of the filing of Staff's motion. Additionally, Commission Staff is authorized to serve follow-up questions upon any entity listed on Attachment B. Those questions shall relate to topics or issues raised in

Attachment A. Staff shall propose such follow-up questions in writing, filed in this docket, and obtain Commission approval for such questions.

5. Certain criteria for effective competition are included in §§ 40-15-207 and 40-15-305; it is these criteria that will be key components of the survey questions:

- a) The extent of economic, technological, or other barriers to market entry and exit;
- b) The number of other providers offering similar services;
- c) The ability of consumers to obtain the service from other providers at reasonable and comparable rates, on comparable terms, and under comparable conditions;
- d) The ability of any provider of such telecommunications service to affect prices or deter competition;
- e) Such other relevant and necessary factors, including but not limited to relevant geographic areas, as the Commission deems appropriate.

6. The Rules Relating to the Claim of Confidentiality of Information Submitted to the Colorado Public Utilities Commission, 4 CCR 723-16, shall apply to this proceeding as modified by Attachment C. Parties seeking to modify or supplement these confidentiality provisions shall timely file a motion requesting such action by the Commission.

7. The products and services that are the subject of this competitive analysis are offered in Colorado by a variety of providers, excluding Part 2 services provided by the small rural telecommunications providers. Those providers include all certificated carriers, Part 2 carriers, all Part 3 carriers, toll resellers, nonoptional operator service providers, and wireless providers certified as Eligible Telecommunications Carriers or Eligible Providers. These are the entities listed on Attachment B.

8. Time is of the essence in this investigation. Therefore, the Commission expects timely complete and accurate responses to the questions contained in Attachment A.

**II. ORDER**

**A. The Commission Orders That:**

- 1. This docket is hereby opened for the above-stated purposes.
- 2. The telecommunications companies listed on Attachment B are directed to file responses as directed in the above-referenced survey, Attachment A, consistent with the above discussion, and are joined as indispensable parties to this docket.
- 3. Interested persons may file requests for intervention in this docket, in accordance with the Commission's Rules of Practice and Procedure, 4 CCR 723-1, within 30 days of the effective date of this order.
- 4. This Order is effective on its Mailed Date.

**B. ADOPTED IN COMMISSIONERS' WEEKLY MEETING

## Definitions

### Types of Providers

“ILEC” means an incumbent local exchange carrier.

“CLEC” means a competitive local exchange carrier. A CLEC is an entity authorized to provide Local Exchange Service that does not otherwise qualify as an Incumbent Local Exchange Carrier (ILEC).

“DLEC” means a data local exchange carrier or company that provides or delivers high-speed access to the Internet and may also provide or deliver voice service.

“Toll Reseller” means a provider of interLATA or intraLATA telecommunications services via facilities leased or purchased from another provider.

### Terms Used in the Survey

“DS-0 Circuit”: A digital signal that is equivalent to one voice circuit using a bandwidth of up to 64 Kbps. There are 24 DS0 channelized circuits on a DS-1 pipe.

“End User”: Residential, business, institutional, and government customers who use the service for their own purposes and do not resell them to other entities.

“Facilities Based”: A telecommunications provider that uses its own switches **and** network facilities (e.g., local loop) to provide service to the end user. Those providers who have a contract or lease agreement with a non-ILEC provider for the use of the switch **and** network facilities are also considered facilities-based. If the company uses its own switch but uses UNE-L (UNE-Loop) purchased from an ILEC to provide service to the end user, those lines are considered to be, for this survey, UNE-L lines.

SUPPLEMENTAL PROTECTIVE ORDER

Highly Confidential Information:

Any person, whether a party or non-party, may designate certain competitively sensitive Confidential Information as “Highly Confidential Information” if it determines in good faith that it would be competitively disadvantaged by the disclosure of such information to its competitors. Parties must scrutinize carefully responsive documents and information and limit their designations as Highly Confidential Information to information that truly might impose a serious business risk if disseminated without the heightened protections provided in this section. The first page and individual pages of a document determined in good faith to include Highly Confidential Information must be marked by a stamp that reads:

“HIGHLY CONFIDENTIAL—USE RESTRICTED PER PROTECTIVE ORDER IN DOCKET NO. 04M-435T.”

Placing a “Highly Confidential” stamp on the first page of a document indicates only that one or more pages contain Highly Confidential Information and will not serve to protect the entire contents of a multi-page document. Each page that contains Highly Confidential Information must be marked separately to indicate Highly Confidential Information, even where that information has been redacted. The unredacted versions of each page containing Highly Confidential Information, and provided under seal, should be submitted on paper distinct in color from non-confidential information and “confidential information.”

Parties seeking disclosure of Highly Confidential Information must designate the person(s) to whom they would like the Highly Confidential Information disclosed in advance of disclosure by the providing party. Such designation may occur through the submission of Exhibit “A” of the non-disclosure agreement which is attached hereto and incorporated herein. Parties seeking disclosure of Highly Confidential Information shall not designate more than (1) a reasonable number of in-house attorneys who have direct responsibility for matters relating to

Highly Confidential Information; (2) two in-house experts; and (3) a reasonable number of outside counsel and outside experts to review materials marked as “Highly Confidential.” The Exhibit “A” also shall describe in detail the job duties or responsibilities of the person being designated to see Highly Confidential Information and the person’s role in the proceeding. Highly Confidential Information may not be disclosed to persons engaged in developing, planning, marketing, or selling retail or wholesale services, strategic or business planning, competitive assessment, or network or system planning or procurement on behalf of the receiving party.

Any party, providing Highly Confidential Information may object to the designation of any individual as a person who may review Highly Confidential Information. Such objection shall be made in writing to counsel submitting the challenged individual’s Exhibit “A” within three (3) business days after receiving the challenged individual’s signed Exhibit “A.” Any such objection must demonstrate good cause to exclude the challenged individual from the review of the Highly Confidential Information. Written response to any objection shall be made within three (3) business days after receipt of an objection. If after receiving a written response to a party’s objection, the objecting party still objects to disclosure of Highly Confidential Information to the challenged individual, the Commission shall determine whether the Highly Confidential Information must be disclosed to the challenged individual.

Copies of Highly Confidential Information may be provided to the in-house attorneys, outside counsel and outside experts. The in-house experts who have signed and Exhibit “A” may inspect review, and make notes from the in-house attorney’s copies of Highly Confidential Information.

Persons authorized to review the Highly Confidential Information will maintain the documents and any notes reflecting their contents in a secure location to which only designated counsel and experts have access. No additional copies will be made, except for use during hearings. Any testimony or exhibits prepared that reflect Highly Confidential Information

must be maintained in the secure location until removed to the hearing room for production under seal and under circumstances that will ensure continued protection from disclosure to persons not entitled to review Highly Confidential Information.

Unless specifically addressed in this section, all other sections of the Commission's Confidentiality Rule 4 CCR 723-16 shall apply.
