BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF COLORADO

Proceeding No. 16AL-0829W

IN THE MATTER OF ADVICE LETTER NO. 4 FILED BY DALLAS CREEK WATER COMPANY TO INCREASE UTILITY RATES AND FEES TO BECOME EFFECTIVE DECEMBER 1, 2016

SETTLEMENT AGREEMENT

Dallas Creek Water Company, Inc. (DCWC), Staff of the Public Utilities Commission (Staff), the Association of Dallas Creek Water Users, Inc. (ADCWU) and Fairway Pines Estates Owners Association (FPEOA) (collectively, the "Parties") enter into this Settlement Agreement to confirm the terms of their negotiated settlement of the issues in this rate proceeding.

I. Introduction and procedural background.

- A. On October 28, 2016, DCWC filed Advice Letter No. 4 and proposed tariff sheets requesting a general rate increase with an effective date of December 1, 2016.
- B. On November 30, 2016, the Commission issued Decision No. C16-1094 suspending the effective date of the tariffs and setting the matter for hearing under C.R.S. § 40-6-111(1).
- C. By Decision No. C16-1094, the Commission referred the matter to the Administrative Law Judge (ALJ) for disposition.
- D. On December 7, 2016, the ALJ issued Decision No. R16-1122-I further suspending the effective date of the tariff sheets filed with Advice Letter No. 4 for an additional 90 days, to and including June 29, 2017.

Appen. A, Dec. No. R17-0277 Proc. No. 16AL-0829W, Page 2 of 23

EXHIBIT A to Joint Motion to Adopt the Settlement Agreement

E. On December 23, 2016, DCWC filed a Stipulation Regarding Procedural

Schedule. By Decision No. R17-0004-I (Mailed Date: January 4, 2017), the ALJ approved and

adopted the Parties' Stipulation.

F. Staff, ADCWU, and FPEOA timely intervened as Parties to this proceeding, and

by Decision No. R17-0016-I (Mailed Date: January 9, 2017), the ALJ confirmed their party

status as Intervenors and ordered the Parties to file legal briefs addressing whether two principal

legal issues raised by ADCWU and FPEOA were within the scope of this rate proceeding.

G. On January 17, 2017, the Parties each filed their respective briefs on the legal

issues.

H. By Decision No. R17-0070-I (Mailed Date: January 25, 2017), the ALJ

determined the scope of the proceeding and concluded the two legal issues raised by ADCWU

and FPEOA to be outside of the scope of the proceeding.

I. On January 27, 2017, DCWC filed its Direct Testimony and Attachments of

James Willey.

J. On February 13, 2017, the Parties filed a Joint Motion to Stay the Procedural

Schedule. By Decision No. R17-0136-I (Mailed Date: February 15, 2017), the ALJ granted the

Joint Motion in part and ordered the Parties to file a written settlement agreement or a status

report on or before February 24, 2017.

II. Settlement Terms.

In consideration of the Particular Negotiated Terms contained in this section II.A. of this

Settlement Agreement, Intervenors ADCWU and FPEOA agree to withdraw their objection and

opposition to DCWC's request for Tariff Revisions as set forth in **Exhibit D** to this Settlement

Agreement. By withdrawing objection and opposition to the Colorado Public Utilities Commission's ("Commission") acceptance of the revised tariff requested by DCWC, Intervenors ADCWU and FPEOA do not endorse, agree with, nor adopt the basis and reasons for the revised tariff, but instead simply withdraw their objections and opposition and rely upon the Commission Staff to address the revised tariff through usual ratemaking procedures and factors, and defer to Commission Staff as to the appropriateness of the revised tariff sought by DCWC in this proceeding.

Similarly, by entering into this Settlement Agreement, DCWC does not expressly or impliedly concede, confess, or agree with any specific arguments, concerns, issues, or allegations raised by FPEOA, ADCWU, or Ouray County against DCWC during the course of this proceeding, including all arguments, concerns, issues or allegations determined by the ALJ to be outside of the scope of this proceeding.

A. Particular Negotiated Terms.

- 1. The Parties recognize and agree that the Colorado Public Utilities Commission's (Commission) jurisdiction and authority is established and defined in Article XXV of the Colorado Constitution and the Public Utilities Law, C.R.S. §§ 40-1-101, *et seq*. By entering into this Settlement Agreement, the Parties do not intend to expand, limit, or alter in any way the Commission's current power and authority to regulate DCWC as a small, privately-owned public utility.
- 2. The Parties recognize and agree that the Commission previously determined DCWC's water supply to be adequate to serve the anticipated growth within its approved service territory. *See Decision No. C06-1410*, ¶ 38, p. 11 in Docket No. 05A-333W (Mailed Date: December 1, 2006); *see also Decision No. R06-1023*, ¶ 171, p. 38 in Docket No. 05A-333W

Appen. A, Dec. No. R17-0277 Proc. No. 16AL-0829W, Page 4 of 23

EXHIBIT A to Joint Motion to Adopt the Settlement Agreement

(Mailed Date: September 1, 2006). The Parties agree that nothing in this Docket or Settlement

Agreement alters that prior determination.

3. The Parties recognize and agree that the Commission's authority under C.R.S. §§

40-3-101 and -102 (2017) includes the general jurisdiction to monitor, address, facilitate, oversee

and regulate matters related to the adequacy of DCWC's water supply, including DCWC's

performance of its contractual obligations and enforcement of contractual obligations under

DCWC's water supply lease with JKC Utilities, LLC ("Raw Water Lease and Transportation

Agreement (JKC Utilities LLC and Dallas Creek Water Company)", Attachment JAW-7, Dallas

Creek Water Company's Direct Testimony and Attachments of James Willey, January 27, 2017,

Proceeding No. 16AL0829W). However, the Parties also recognize and agree that such general

jurisdiction does not alter or supersede the jurisdiction and authority of the State, Water Court

and/or County to determine water supply matters pursuant to State statutes and County

regulations; and does not mean the State and/or County may not be in a better position to

determine those matters. See, Decision No. R06-1023, ¶ 177, p. 40 in Docket No. 05A-333W

(Mailed Date: September 1, 2006). Nor does such general jurisdiction create nor does it limit any

additional powers or affirmative obligations of the Commission to sue or otherwise seek

enforcement of DCWC's water supply lease, or otherwise usurp DCWC's decision making

authority and managerial discretion to address these issues as it sees fit in the best interests of the

customers.

4. The Parties recognize that the Commission's authority under C.R.S. §§ 40-3-101

and -102 (2017) includes the general jurisdiction to monitor, address, facilitate, oversee and

regulate matters related to DCWC's emergency water supply in the event of a severe drought and

other potential disaster scenario, such as a hazardous material spill and contamination event in

Dallas Creek, the source water for DCWC's water supply; as well as, any future agreement that DCWC might enter into with the Tri-County Water Conservancy District (TCW) for future interconnection of DCWC and TCW's water systems for purposes of emergency water supply. The Parties agree that DCWC shall keep the Commission informed of DCWC's efforts and progress made towards addressing additional emergency water supplies by filing with the Commission a water supply report within one year of the conclusion of this proceeding, and thereafter as necessary, at such time and in such form as may be requested or directed by the Commission and/or Staff. However, the Parties also recognize and agree that such general jurisdiction does not alter or supersede the jurisdiction and authority of the State, Water Court and/or County to determine and regulate, if necessary, such matters pursuant to State statutes and County regulations; and does not mean the State and/or County may not be in a better position to address such matters. Nor does such general jurisdiction create nor does it limit any additional powers or affirmative obligations of the Commission to determine any particular course of action by DCWC or otherwise usurp DCWC's decision making authority and managerial discretion to address these issues as it sees fit in the best interests of the customers.

B. DCWC's Revenue Requirement and Rate Increase.

1. This Settlement Agreement constitutes agreement by and between DCWC and Staff ("the Stipulating Parties") on both the DCWC revenue requirement and the rate increases allocated to each rate classification. Intervenors ADCWU and FPEOA do not join in agreement with the terms and representations in this section II.B. of this Settlement Agreement, but instead withdraw their objections and opposition to DCWC's request for Tariff Revisions as set forth in **Exhibit D** to this Settlement Agreement.

Appen. A, Dec. No. R17-0277 Proc. No. 16AL-0829W, Page 6 of 23

EXHIBIT A to Joint Motion to Adopt the Settlement Agreement

- 2. Prior to filing Advice Letter No. 4, DCWC consulted with Staff in developing the Stipulated Budget attached as **Exhibit A** in order to determine DCWC's current revenue requirement. The Stipulated Budget is based on DCWC's actual operating costs and expenses (collectively costs) incurred in 2015, with specific adjustments or additions being made for the following line items:
 - a. **Distribution System Maintenance Wage.** An additional \$26,000 is budgeted for a new part-time employee responsible for assisting the Water Operator with maintaining the distribution system.
 - b. **Plant and Distribution System Repairs.** Because some of the expenses incurred in 2015 were not reoccurring expenses, the Stipulating Parties stipulated to budgeting the 5-year average of actual costs for this particular line item. This resulted in a downward adjustment of \$74,141 from the 2015 actual cost of \$127,826.
 - c. **DCWC's Rate Case Legal Expenses.** The Stipulating Parties stipulate to budgeting \$70,000.00 to be amortized over 4 years at \$17,500.00 per year, assuming the Settlement Agreement is approved without hearing or modification and no further expenses are incurred by DCWC in prosecuting this case. If a hearing is required or the Settlement Agreement is modified, then the Stipulating Parties understand and agree that the final amount for DCWC's rate case legal expenses will be adjusted based on the actual amounts incurred by DCWC. The rates also will be adjusted in the fifth year to remove the line item expense for this case.
 - d. **Bad Debt Write Off and Other Legal Expenses.** The Stipulating Parties stipulate to excluding bad debt written off as a result of a Commission decision in 2013 in the complaint proceeding brought by FPEOA. Other legal expenses incurred by DCWC in defending various legal threats from groups of customers were also excluded from the Stipulated Budget since they were unrelated to DCWC's ability to provide water service to its customers.

The Stipulating Parties agree that using DCWC's 2015 actual expenses with the above adjustments is just and reasonable and that DCWC's current revenue requirement calculation using the Stipulated Budget is appropriate, just, and reasonable for determining rates in this proceeding.

Appen. A, Dec. No. R17-0277 Proc. No. 16AL-0829W, Page 7 of 23

EXHIBIT A to Joint Motion to Adopt the Settlement Agreement

3. The Stipulating Parties agree that the water lease expense for DCWC's water

supply obtained from JKC Utilities, LLC is reasonable. The Commission has previously found

this water lease expense to be just and reasonable. See Decision No. C06-1410, ¶¶ 6-9, pp. 3-4 in

Docket No. 05A-333W (Mailed Date: December 1, 2006). Since the prior proceeding, no

material terms of or circumstances related to DCWC's lease have changed. Presently, the only

feasible alternative water supplier with water rights capable of serving DCWC's customers is

TCW. The comparable cost of purchasing water from TCW through a new connection and

master meter remains considerably more expensive than the current lease expense with JKC.

Aside from the substantial start-up infrastructure and connection costs, when comparing only the

water lease expense to the cost of TCW water, the JKC lease remains the least cost alternative.

Lastly, the lease expense is prudent because DCWC only pays for what it needs, while

maintaining the right to purchase as much water as DCWC's domestic customers need up to the

full extent of JKC's senior decreed rights.

4. The Stipulating Parties stipulate that the 87 percent operating ratio approved by

the Commission in Docket Nos. 05A-333W and 05S-396W remains appropriate for determining

DCWC's current revenue requirement.

5. **Exhibit B** contains the Stipulating Parties' stipulated cost of service assignments.

The Stipulating Parties further agree the cost of service assignments are appropriate and non-

discriminatory for purposes of rate design and the rate increases requested in this proceeding.

6. **Exhibit C** contains the Stipulating Parties' agreement as to the rate increases for

each rate class. Key assumptions agreed to for purposes of calculating the rate increases are:

a. Water Distribution Fee per 1,000 gallons. The rate calculation assumes an

annual demand of 9,775,000 gallons, which is the actual usage in 2015.

Appen. A, Dec. No. R17-0277 Proc. No. 16AL-0829W, Page 8 of 23

EXHIBIT A to Joint Motion to Adopt the Settlement Agreement

- b. **Base Service Charge.** The rate calculation assumes 866 tap owner customers. This assumption is based on the most current information as of January 27, 2017, the date on which DCWC filed its direct testimony.
- c. **Meter In-Service Charge**. The rate calculation assumes 413 connected water customers. This assumption is based on the most current information as of January 27, 2017, the date on which DCWC filed its direct testimony.
- d. **Customer Usage Fee per 1,000 gallons**. The rate calculation assumes an annual demand of 16,188,000 gallons, which is the actual usage in 2015.
- 7. The Stipulating Parties agree that after accounting for revenue generated from non-water service sources, the current annual re-apportioned or net revenue requirement for DCWC is \$800,060. *See* Exhibit C.

C. Tariff Revisions.

- 1. The Stipulating Parties agree to the revised tariff pages attached as **Exhibit D**.
- 2. The Stipulating Parties agree that upon final Commission order approving this Settlement Agreement, DCWC will file a compliance filing on not less than one day's notice to place into effect the revised tariff pages.

D. General Terms.

1. This Settlement Agreement shall not become effective until the issuance of a final Commission order approving the Settlement Agreement, which order does not contain any modification of the terms and conditions of this Settlement Agreement that is unacceptable to the Parties hereto. In the event the Commission modifies this Settlement Agreement in a manner unacceptable to any Party hereto, that Party shall have the right to withdraw from this Settlement Agreement and proceed to hearing on some or all of the issues that may be appropriately raised by that Party in this proceeding under a new procedural schedule. The withdrawing Party shall notify the Commission and the other Parties to the Settlement Agreement, in writing within ten days of the date of the Commission order that the Party is withdrawing from the Settlement

Appen. A, Dec. No. R17-0277 Proc. No. 16AL-0829W, Page 9 of 23

EXHIBIT A to Joint Motion to Adopt the Settlement Agreement

Agreement (such notice being referred to as the "Notice"). A Party who properly serves a Notice

shall have and be entitled to exercise all rights the Party would have had in the absence of the

Party's agreeing to this Settlement Agreement, and a hearing shall be scheduled on an expedited

basis, as soon as practicable.

2. In the event that this Settlement Agreement is not approved, or is approved with

conditions that are unacceptable to any Party who subsequently withdraws, the negotiations or

discussions undertaken in conjunction with the Settlement Agreement shall not be admissible

into evidence in this or any other proceeding.

3. Approval by the Commission of this Settlement Agreement shall constitute a

determination that the Settlement Agreement represents a just, equitable, and reasonable

resolution of all issues that were or could have been contested among the Parties in this

proceeding solely addressing DCWC's filed Advice Letter No. 4 and proposed tariff sheets

requesting a general rate increase. The Parties recognize and agree that the two issues raised by

ADCWU and FPEOA which the ALJ determined to be outside of the scope of the proceeding in

Decision No. R17-0070-I (Mailed Date: January 25, 2017) are not affected, settled or resolved

by this Settlement Agreement, and specifically are not "issues that were or could have been

contested among the parties to this proceeding," as they have been excluded from this

proceeding. Further, Intervenors ADCWU and FPEOA do not waive, retroactively or

prospectively, any possible claims in a different proceeding which have not been raised or

addressed in this proceeding addressing DCWC's request for a revised tariff and general rate

increase.

Appen. A, Dec. No. R17-0277 Proc. No. 16AL-0829W, Page 10 of 23

EXHIBIT A to Joint Motion to Adopt the Settlement Agreement

4. This Settlement Agreement is the result of a negotiated compromise of issues raised in the proceeding. Nothing contained herein shall be deemed an express or implied admission or acceptance by any Party of any fact, principle, or position. By signing this Settlement Agreement and by joining the motion to adopt the Settlement Agreement filed with the Commission, the Parties acknowledge that they pledge support for Commission approval and subsequent implementation of these provisions.

5. This Settlement Agreement may be executed in counterparts, all of which when taken together shall constitute the entire agreement between the Parties with respect to the issues addressed by this Settlement Agreement.
