

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF COLORADO

PROCEEDING NO. 20A-0145T

IN THE MATTER THE APPLICATION OF CLEAR CREEK COUNTY BOARD OF COUNTY COMMISSIONERS FOR A SURCHARGE CHARGE INCREASE PURSUANT TO C.R.S. 29-11-102(2)(B).

COMMISSION DECISION GRANTING APPLICATION

Mailed Date: May 15, 2020
Adopted Date: May 13, 2020

I. BY THE COMMISSION

A. Statement

1. On April 2, 2020, the Clear Creek County Board of County Commissioners (Applicant or Company) filed its application pursuant to § 29-11-102(2)(b), C.R.S., for approval of an emergency telephone charge increase from \$1.25 to \$2.40 per service user per month (Application).

2. Also on April 2, 2020, the Commission gave notice of the Application stating that parties wishing to participate in this Proceeding should file an Intervention or other appropriate pleading within 30 days after the date of the Notice.

3. On April 15, 2020, the Applicant filed an Affidavit attesting that it had published notice of the Application in two local newspapers, exceeding the requirements set forth in the Commission's Rules Regulating Telecommunications Services and Providers of Telecommunications Services, 4 *Code of Colorado Regulations* (CCR) 723-2-2147(d).

4. No interventions were filed or public comments received in response to this Application.

II. FINDINGS AND CONCLUSIONS

5. Since the Application is now uncontested, the matter will be considered pursuant to the Commission's modified procedure, § 40-6-109(5), C.R.S., and the Commission's Rules of Practice and Procedure, 4 CCR 723-1-1403.

6. The Applicant is a governing body as defined in § 29-11-101(4), C.R.S.

7. A governing body may incur equipment, installation, and other costs directly related to the continued operation of emergency telephone service pursuant to § 29-11-102, C.R.S. As provided in paragraph (a) of subsection (2) of that statute, such allowable costs may be categorized as equipment directly related to the receipt and routing of emergency calls, monthly recurring charges for the emergency telephone service, reimbursement of costs for equipment changes necessary for the provision or transmission of wireless Automatic Number Identification or wireless Automatic Location Identification to a public safety answering point (PSAP), costs related to the provision of emergency notification service and emergency telephone service, and "other" directly related costs. Personnel expenses necessarily incurred for a PSAP may also be paid with funds collected from 911 charges.¹ § 29-11-104(2)(b), C.R.S.

8. A governing body is statutorily authorized to collect up to \$0.70 per month per exchange access facility, per wireless communications access, and per interconnected Voice over Internet Protocol service to cover such costs of service within its jurisdiction. In the event that a governing body determines that a charge in excess of \$0.70 is necessary to provide adequate emergency telephone service, the governing body shall obtain the approval of the Commission before imposing such higher charge. § 29-11-102(2), C.R.S.

¹ Such personnel include employees who take and dispatch telephone calls, or who maintain the computer database of the PSAP.

9. Currently, the monthly emergency telephone surcharge is \$1.25 in the Applicant's service territory. The Application seeks to increase the charge to \$2.40 per month.

10. The Company is supported by the Affidavit and verification of the information filed with the Commission by the Applicant.

11. The Applicant funds one PSAP, that being the one operated by the Clear Creek County Sheriff's Office.

12. The Applicant has determined that an increase in the emergency telephone surcharge is needed for several reasons, including: (1) replacement of the computer aided dispatch system at the PSAP; (2) replacement of radios used by field responders; (3) a loss of income from property tax revenue; and, (4) increased costs for implementation of the CenturyLink Emergency Services IP Network tariff.²

13. The increase requested by the Applicant will increase revenues for the Applicant by an average of roughly \$150,000 per year, or about \$831,000 over the next five years. Without any increase, the Applicant will either exhaust its funds in 2023 or be forced to forgo some of its planned expenses. With the requested increase, assuming no unforeseen costs, funding should be sufficient for at least the next five years.

14. Based on this evidence, the Commission agrees with Applicant that additional funding that would be raised by a surcharge rate of \$2.40 is necessary in order to adequately fund planned expenditures allowed pursuant to § 29-11-104(2), C.R.S.

² See Proceeding No. 17AL-0487T, Decision No. R18-1063, issued December 3, 2018.

III. ORDER

A. The Commission Orders That:

1. The application of the Clear Creek County Board of County Commissioners (Applicant) seeking to increase the emergency telephone charge to \$2.40 per access line per month is granted.

2. The Applicant shall notify each affected service provider of the increase in the emergency telephone surcharge by registered mail at least 60 days prior to the new rate becoming effective.

3. The 20-day time period provided by § 40-6-114, C.R.S., to file an application for rehearing, reargument, or reconsideration shall begin on the first day after the effective date of this Decision.

4. This Decision is effective upon its Mailed Date.

**B. ADOPTED IN COMMISSIONERS' WEEKLY MEETING
May 13, 2020.**
