**6724. Transportation for Remuneration from a School or School District**

In accordance with § 40-10.1-608(3)(a), C.R.S., the following minimum safety standards are implemented for transportation network companies, personal vehicles, and transportation network company drivers when engaging in services provided under a contract with a school or school district. These minimum safety standards are in addition to all other transportation network company rules present in this section.

- (a) **Contracts.** A transportation network company that, for remuneration from a school or school district, provides services for students to or from a school, school-related activities, or school-sanctioned activities shall enter into a contract with the appropriate school or school district that may include specific provisions for the safety of student passengers, as determined by the school or school district.
- (b) **End-to-End Visibility.** A transportation network company that, for remuneration from a school or school district, provides services for students to or from a school, school-related activities, or school-sanctioned activities shall use a technology-enabled integrated solution that provides end-to-end visibility into the ride for the transportation network company, the student's legal guardian, and the person that scheduled the ride. This solution must allow for Global Positioning System (GPS) monitoring of the ride in real time for safety-related anomalies.
  - (I) The technology-enabled integrated solution shall be maintained and in good working order, at all times, when performing services provided under contract with a school or school district. Any disruption that occurs during a prearranged ride shall be immediately reported to the school or school district and to the parent or legal guardian of the involved student, as applicable.
- (c) **Training Requirements.** A transportation network company that, for remuneration from a school or school district, provides services for students to or from a school, school-related activities, or school-sanctioned activities shall ensure that each driver providing the service receives training in mandatory reporting requirements, safe driving practices, first aid and Cardiopulmonary Resuscitation (CPR), education on special considerations for transporting students with disabilities, emergency preparedness, and safe pick-up and drop-off procedures.
  - (I) Any driver training covering the topics outlined in this rule must be approved by the Commission prior to being used to meet this requirement. Commission staff, in consultation with the Colorado Department of Education (CDE) as a subject matter expert, shall be responsible for the review and approval of any related driving training. If a submitted driver training is not approved, a TNC may, within 60 days of Commission staff's notification, file a petition with the Commission for a qualification determination.
  - (II) Driver training covering the topics outlined in this rule, as offered by schools or school districts, may meet this requirement, if approved by the Commission.
  - (III) A TNC, or a third party on behalf of a TNC, shall maintain records associated with the training requirements outlined in this rule during the driver's period of service and for six months thereafter.

- (IV) The TNC, not the driver, shall pay the cost of providing the training outlined in this rule.
  - (V) The driver training outlined in this rule shall be completed prior to the driver performing services provided under a contract with a school or school district.
- (d) Criminal History Record Checks. If a fingerprint background check for a driver is required, as specified in a contract with a school or school district, the criminal history record check shall be completed pursuant to the procedures set forth in § 40-10.1-110, C.R.S., as supplemented by the Commission's rules, in accordance with § 40-10.1-605(3)(a)(I), C.R.S., or through the State's Volunteer Employee Criminal History Services (VECHS) program.
- (I) In addition to the disqualification provisions under § 40-10.1-605(3)(c), C.R.S., a TNC shall not use a driver to provide services for students to or from a school, school-related activities, or school-sanctioned activities for remuneration from a school or school district if the driver has been convicted of or pled guilty or nolo contendere to an offense described in § 22-32-109.8(6.5), C.R.S.
- (e) Medical Fitness. A TNC shall not permit a person to act as a driver, when performing services provided under a contract with a school or school district, unless the driver has been medically examined and certified under the provisions of 49 C.F.R. 391.41.

  - (II) A TNC, or a third party on behalf of a TNC, shall maintain records associated with the driver's medical certification, as outlined in this rule, during the driver's period of service and for six months thereafter. This documentation shall be made available to an enforcement official, upon request.
  - (III) The medical certification requirements, as outlined in this rule, may substitute the specific provisions of any other rules in this section that reference a driver's self-certification to the TNC that they are physically and mentally fit to drive.
- (f) Vehicle Inspections. A TNC shall not permit the use of a personal vehicle, when performing services provided under contract with a school or school district, unless the individual performing the vehicle inspection, as outlined in 6714, is an Automotive Service Excellence (ASE) certified mechanic qualified to perform the inspection and employed by a company authorized to do business in Colorado.

  - (B) if no defects or deficiencies are discovered by or reported to the driver, the report shall so indicate; and
  - (C) in all instances, the driver shall sign, or otherwise certify, the report.
- (III) Prior to requiring or permitting a driver to operate a personal vehicle, when performing services provided under contract with a school or school district, any noted defects or deficiencies listed in the DVIR shall be repaired or corrected.
- (IV) For every DVIR which identifies any defects or deficiencies, a certification of the repair must be made that indicates the defects or deficiencies have been repaired or that the repair is unnecessary.
- (V) The driver shall review and certify the repair has been made, if applicable.
- (VI) The TNC shall maintain a DVIR record for three months after the date the DVIR was prepared.
