

Colorado State Board of Pharmacy

Policy Number: 20-1

Title: Reinstatement of Expired Licenses or Registrations

Date Issued: 11/30/07

Date(s) Revised: 7/21/11

PURPOSE: To provide guidance to licensees, registrants and staff regarding the Board's position on reinstatement of an expired license or registration when the licensee has been practicing pharmacy with an expired license or the registrant has been engaging in activity requiring a registration.

POLICY: Pursuant to section 12-22-118, C.R.S., a licensee or registrant, who has not timely renewed and wishes to resume practice or engage in activity requiring a registration, must file an application to reinstate the license or registration. If all documentation is in order and no issues arise during the application process which would require Board review, staff is authorized to administratively reinstate the license or registration. . If the applicant has practiced or has engaged in activity requiring a registration on an expired license or registration and that license or registration has been expired for 60 days or more, staff shall automatically initiate a complaint against the applicant.

It is also the position of the Board that pharmacists, interns, and registrants must immediately cease practice upon learning that their license or registration has expired. Further, the pharmacist, pharmacy intern, or registration shall not return to practice or conduct activity requiring a registration until the license or registration has been reinstated.
