(2) Any person whose license to practice is revoked is rendered ineligible to apply for any license under this article for at least two years after the date of revocation or surrender of the license. Any subsequent application for licensure shall be treated as an application for a new license.

(3) Any member of the board or professional review committee authorized by the board, any member of the board's or professional review committee's staff, any person acting as a witness or consultant to the board or committee, any witness testifying in a

proceeding authorized under this article, and any person who lodges a complaint pursuant to this article shall be immune from liability in any civil action brought against him or her for acts occurring while acting in his or her capacity as board or committee member, staff, consultant, or witness, respectively, if such individual was acting in good faith within the scope of his or her respective capacity, made a reasonable effort to obtain the facts of the matter as to which he or she acted, and acted in the reasonable belief that the action taken by him or her was warranted by the facts. Any person participating in good faith in lodging a complaint or participating in any investigative or administrative proceeding pursuant to this article shall be immune from any civil or criminal liability that may result from such participation.

(4) The discipline of a licensee by another state, territory, or country shall be deemed the equivalent of unprofessional conduct under this article; except that this subsection (4) shall apply only to discipline that is based upon an act or omission in such other state, territory, or country that is defined substantially the same as unprofessional conduct pursuant to this article.

(5) (a) Nothing in this section shall be construed to deprive any dental patient of the right to choose or replace any professionally recognized restorative material, nor to permit disciplinary action against a dentist solely for removing or placing any professionally recognized restorative material.

(b) Nothing in paragraph (a) of this subsection (5) shall be construed to prevent disciplinary action against a dentist for practicing dentistry in violation of this article.

(6) Complaints relating to the conduct of any dentist or dental hygienist shall be in writing and may be made by any person and, if so made, shall be signed by such person or may be initiated by the board on its own motion. The dentist or dental hygienist complained of shall be given notice of such complaint.

(7) (a) If the board has reasonable cause to believe that a person licensed to practice dentistry or dental hygiene in this state is unable to practice dentistry or dental hygiene with reasonable skill and safety to patients, because of a physical or mental disability or because of excessive use of any habit-forming drug or substance or controlled substance, as defined in section 18-18-102 (5), C.R.S., the board may require such licensed dentist or dental hygienist to submit to mental or physical examinations by a qualified professional designated by the board.

(b) Upon the failure of such licensed dentist or dental hygienist to submit to such mental or physical examinations, unless the failure is due to circumstances beyond the dentist's or dental hygienist's control, the board may suspend such dentist's or dental hygienist's license to practice dentistry or dental hygiene in this state until such time as the dentist or dental hygienist submits to the examinations.

(c) Every person licensed to practice dentistry or dental hygiene in this state shall be deemed, by so practicing or by applying for a renewal of the person's license to practice dentistry or dental hygiene in this state, to have given consent to submit to mental or physical examinations when directed in writing by the board, and further to have waived

all objections to the admissibility of the examining qualified professional's testimony or examination reports on the ground of privileged communication.

(d) The results of any mental or physical examination ordered by the board shall not be used as evidence in any proceeding other than before the board.

(e) Investigations, examinations, hearings, meetings, or any other proceedings of the board conducted pursuant to this section shall be exempt from the provisions of any law requiring that proceedings of the board be conducted publicly or that the minutes or records of the board with respect to action of the board taken pursuant to this section are open to public inspection; except that the final action of the board taken pursuant to this section shall be open to the public.

(f) If an investigation discloses an instance of conduct that, in the opinion of the board, does not warrant formal board action and should be dismissed, but in which the board has noticed indications of possible errant conduct that could lead to serious consequences if not corrected, a confidential letter of concern shall be sent to the licensee against whom the complaint was made. The person making the complaint shall be sent a notice that a letter of concern has been issued by the board.

(g) The board may include, in any disciplinary order that allows the dentist or dental hygienist to continue to practice, such conditions as the board may deem appropriate to assure that the dentist or dental hygienist is physically, mentally, and otherwise qualified to practice dentistry or dental hygiene in accordance with generally accepted professional standards of practice. Such an order may include any or all of the following:

(I) Submission by the licensee to such examinations as the board may order to determine the licensee's physical or mental condition or professional qualifications;

(II) The taking by the licensee of such therapy, courses of training, or education as may be needed to correct deficiencies found by the board or by such examinations;

(III) The review or supervision of the licensee's practice as may be necessary to determine its quality and to correct any deficiencies;

(IV) The imposition of restrictions on the licensee's practice to assure that such practice does not exceed the limits of the licensee's capabilities.

(8) (a) If a professional review committee is established pursuant to this section to investigate complaints against a person licensed to practice dentistry under this article, the committee shall include in its membership at least three persons licensed to practice dentistry under this article, but such committee may be authorized to act only by:

(I) The board; or

(II) A society or an association of persons licensed to practice dentistry under this article whose membership includes not less than one-third of the persons licensed to practice dentistry under this article residing in this state if the licensee whose services are the subject of review is a member of such society or association.

(b) Any member of the board or a professional review committee authorized by the board and any witness or consultant appearing before the board or such professional review committee shall be immune from suit in any civil action brought by a licensee who is the subject of a professional review proceeding if such member, witness, or consultant acts in good faith within the scope of the function of the board or such committee, has made a reasonable effort to obtain the facts of the matter as to which such member, witness, or consultant acts, and acts in the reasonable belief that the action taken by such member, witness, or consultant is warranted by the facts. The immunity provided by this paragraph (b) shall extend to the members of an authorized professional review committee of a society or an association of persons licensed pursuant to this article and witnesses or consultants appearing before such committee if such committee is authorized to act as provided in subparagraph (II) of paragraph (a) of this subsection (8).

(9) A professional review committee of a society or an association of persons licensed pursuant to this article shall:

(a) Notify the board within sixty days after the review committee analyzes care provided by a licensee and determines that such care may not meet generally accepted standards or has otherwise violated any provision of this article. Such care may be subject to disciplinary action by the board.

(b) Allow a periodic audit of records of the review committee to be performed by the board or designee of the board who shall be a licensed or retired dentist from any state. Such audit shall be conducted no more than twice annually. If any pattern of behavior of a licensee is identified that may constitute reasonable grounds to believe there has been a violation of this article, all relevant records of the review committee shall be subject to a subpoena issued by the board.

(10) The proceedings and records of a review committee shall be held in confidence and shall not be subject to discovery or introduction into evidence in any civil action against a dentist arising out of the matters that are the subject of evaluation and review by such committee. However, records of closed proceedings and investigations shall be available to the particular licensee under review and the complainant involved in the proceedings. No person who was in attendance at a meeting of such committee shall be permitted or required to testify in any such civil action as to any evidence or other matters produced or presented during the proceedings of such committee or as to any findings, recommendations, evaluations, opinions, or other actions of such committee or any members thereof. However, information, documents, or records otherwise available from original sources are not to be construed as immune from discovery or use in any such civil action merely because they were presented during proceedings of such committee, and any documents or records that have been presented to the review committee by any witness shall be returned to the witness, if requested by the witness or if ordered to be produced by a court in any action, with copies thereof to be retained by the committee at its discretion. Any person who testifies before such committee or who is a member of such committee shall not be prevented from testifying as to matters within such person's knowledge, but the person shall not be asked about his or her testimony before such a committee or opinions he or she formed as a result of said committee hearings.

(11) If the board finds the charges proven and orders that discipline be imposed, it may also order the licensee to take such courses of training or education as may be needed to correct deficiencies found as a result of the hearing.

(12) (a) On and after January 1, 2005, the chairperson of the board shall divide those members of the board other than the chairperson into two panels of six members each.

(b) Each panel shall act as both an inquiry panel and a hearing panel. Members of the board may be reassigned from one panel to the other by the chairperson. The chairperson may be a member of both panels, but in no event shall the chairperson or any other member who has considered a complaint as a member of a panel acting as an inquiry panel take any part in the consideration of a formal complaint involving the same matter.

(c) All matters referred to one panel for investigation shall be heard, if referred for formal hearing, by the other panel or a committee of such panel. However, in its discretion, either inquiry panel may elect to refer a case for formal hearing to a qualified administrative law judge in lieu of a hearing panel of the board for an initial decision pursuant to section 24-4-105, C.R.S.

(d) The initial decision of an administrative law judge may be reviewed pursuant to section 24-4-105 (14) and (15), C.R.S., by the filing of exception to the initial decision with the hearing panel that would have heard the case if it had not been referred to an administrative law judge or by review upon the motion of such hearing panel. The respondent or the board's counsel shall file such exception.

(e) An investigation shall be under the supervision of the panel to which the investigation is assigned. The person making such investigation shall report the results of the investigation to the assigning panel for appropriate action.

(13) When a complaint or an investigation discloses an instance of misconduct that, in the opinion of the board, warrants formal action, the complaint shall not be resolved by a deferred settlement, action, judgment, or prosecution.

(14) (a) If it appears to the board, based upon credible evidence as presented in a written complaint by any person, that a licensee is acting in a manner that is an imminent threat to the health and safety of the public or a person is acting or has acted without the required license, the board may issue an order to cease and desist such activity. The order shall set forth the statutes and rules alleged to have been violated, the facts alleged to have constituted the violation, and the requirement that all unlawful acts or unlicensed practices immediately cease.

(b) Within ten days after service of the order to cease and desist pursuant to paragraph (a) of this subsection (14), the respondent may request a hearing on the question of whether acts or practices in violation of this part 1 have occurred. Such hearing shall be conducted pursuant to sections 24-4-104 and 24-4-105, C.R.S.

(15) (a) If it appears to the board, based upon credible evidence as presented in a written complaint by any person, that a person has violated any other portion of this part 1, then, in addition to any specific powers granted pursuant to this part 1, the board may issue to such person an order to show cause as to why the board should not issue a final

order directing such person to cease and desist from the unlawful act or unlicensed practice.

(b) A person against whom an order to show cause has been issued pursuant to paragraph (a) of this subsection (15) shall be promptly notified by the board of the issuance of the order, along with a copy of the order, the factual and legal basis for the order, and the date set by the board for a hearing on the order. Such notice may be served by personal service, by first-class United States mail, postage prepaid, or as may be practicable upon any person against whom such order is issued. Personal service or mailing of an order or document pursuant to this subsection (15) shall constitute notice thereof to the person.

(c) (I) The hearing on an order to show cause shall be commenced no sooner than ten and no later than forty-five calendar days after the date of transmission or service of the notification by the board as provided in paragraph (b) of this subsection (15). The hearing may be continued by agreement of all parties based upon the complexity of the matter, number of parties to the matter, and legal issues presented in the matter, but in no event shall the hearing commence later than sixty calendar days after the date of transmission or service of the notification.

(II) If a person against whom an order to show cause has been issued pursuant to paragraph (a) of this subsection (15) does not appear at the hearing, the board may present evidence that notification was properly sent or served upon such person pursuant to paragraph (b) of this subsection (15) and such other evidence related to the matter as the board deems appropriate. The board shall issue the order within ten days after the board's determination related to reasonable attempts to notify the respondent, and the order shall become final as to that person by operation of law. Such hearing shall be conducted pursuant to sections 24-4-104 and 24-4-105, C.R.S.

(III) If the board reasonably finds that the person against whom the order to show cause was issued is acting or has acted without the required license or has or is about to engage in acts or practices constituting violations of this part 1, a final cease-and-desist order may be issued directing such person to cease and desist from further unlawful acts or unlicensed practices.

(IV) The board shall provide notice, in the manner set forth in paragraph (b) of this subsection (15), of the final cease-and-desist order within ten calendar days after the hearing conducted pursuant to this paragraph (c) to each person against whom the final order has been issued. The final order issued pursuant to subparagraph (III) of this paragraph (c) shall be effective when issued and shall be a final order for purposes of judicial review.

(16) If it appears to the board, based upon credible evidence presented to the board, that a person has engaged in or is about to engage in any unlicensed act or practice, any act or practice constituting a violation of this part 1, any rule promulgated pursuant to this part 1, any order issued pursuant to this part 1, or any act or practice constituting grounds for administrative sanction pursuant to this part 1, the board may enter into a stipulation with such person.

(17) If any person fails to comply with a final cease-and-desist order or a stipulation, the board may request the attorney general or the district attorney for the judicial district in which the alleged violation exists to bring, and if so requested such attorney shall bring, suit for a temporary restraining order and for injunctive relief to prevent any further or continued violation of the final order.

(18) A person aggrieved by the final cease-and-desist order may seek judicial review of the board's determination or of the board's final order as provided in section 12-35-130.

12-35-130. Review of board action.

(1) The court of appeals, by appropriate proceedings under section 24-4-106 (11), C.R.S., may review any final action of the board to:

- (a) Deny or refuse to issue or renew a license;
- (b) Suspend a license;
- (c) Revoke a license;
- (d) Censure a licensee;
- (e) Issue a letter of admonition to a licensee;

(2) The provisions of this section apply to a license issued to a dentist or dental hygienist.

12-35-131. Use of forged or invalid diploma or certificate.

It is unlawful for any person to use or attempt to use as his or her own a diploma of a dental college or school, or a license or license renewal certificate, of any other person, or to use or attempt to use a forged diploma, license, license renewal certificate, or identification. It is also unlawful for any person to file with the board a forged document in response to a request by the board for documentation of an applicant's qualifications for licensure.

12-35-132. Sale of forged or invalid diploma or license certificate.

(1) It is unlawful to sell or offer to sell a diploma conferring a dental or dental hygiene degree or a license or license renewal certificate granted pursuant to this article or prior dental practice laws, or to procure such diploma or license or license renewal certificate:

(a) With the intent that it be used as evidence of the right to practice dentistry or dental hygiene by a person other than the one upon whom it was conferred or to whom such license or license renewal certificate was granted; or

(b) With fraudulent intent to alter the document and use or attempt to use it when it is so altered.

12-35-133. Employment of unlicensed person by dentist - penalty.

(1) Every duly licensed dentist who uses the services of any unlicensed person for the purpose of constructing, altering, repairing, or duplicating any denture, plate, partial plate, bridge, splint, or orthodontic or prosthetic appliance shall be required to furnish such unlicensed person with a written laboratory work order in such form as shall be approved by the board, which form shall be dated and signed by such dentist for each separate and individual piece of work. Said laboratory work order shall be made in duplicate form, the duplicate copy to be retained by the dentist in a permanent file for a period of two years and the original copy to be retained in a permanent file for a period of two years by the unlicensed person to whom it was furnished, and both of such permanent files shall be open to inspection at any reasonable time by the board or its duly constituted agent.

(2) Failure of the dentist to keep such permanent records of laboratory work orders shall subject such dentist to disciplinary action as deemed appropriate by the board.

(3) Failure of any such unlicensed person to have in the person's possession a laboratory work order signed by a licensed dentist, or a written work order signed by the initial recipient of the laboratory work order that is identifiable with each denture, plate, partial plate, bridge, splint, or orthodontic or prosthetic appliance in the possession of such unlicensed person, shall be prima facie evidence of a violation of this section.

12-35-134. Soliciting or advertisements by unlicensed persons.

It is unlawful for any unlicensed person, corporation, entity, partnership, or group of persons to solicit or advertise to the general public to construct, reproduce, or repair prosthetic dentures, bridges, plates, or other appliances to be used or worn as substitutes for natural teeth.

12-35-135. Unauthorized practice - penalties.

(1) Any person who practices or offers or attempts to practice dentistry or dental hygiene without an active license issued under this article commits a class 2 misdemeanor and shall be punished as provided in section 18-1.3-501, C.R.S., for the first offense, and, for the second or any subsequent offense, the person commits a class 6 felony and shall be punished as provided in section 18-1.3-401, C.R.S.

(2) Repealed.

12-35-136. Attorney general shall represent board and members.

The attorney general of the state of Colorado shall counsel with and advise the board in connection with its duties and responsibilities under this article. If litigation is brought against the board or any of its individual members in connection with actions taken by it or them under the provisions of this article and such actions are free of malice, fraud, or willful neglect of duty, the attorney general shall defend such litigation without cost to the board or to any individual member thereof.

12-35-137. Independent advertising or marketing agent - injunctive proceedings.

(1) Notwithstanding section 12-35-129 (1) (t), a licensed dentist or dental hygienist may employ an independent advertising or marketing agent to provide advertising or marketing services on the dentist's or dental hygienist's behalf, and the same shall not be considered unprofessional conduct.

(2) The board shall not have the authority to regulate, directly or indirectly, advertising or marketing activities of independent advertising or marketing agents except as provided in this section. The board may, in the name of the people of the state of Colorado, apply for an injunction in district court to enjoin any independent advertising or marketing agent from the use of advertising or marketing that the court finds on the basis of the evidence presented by the board to be misleading, deceptive, or false; except that a licensed dentist or dental hygienist shall not be subject to discipline by the board, injunction, or prosecution in the courts under this article or any other law for advertising or marketing by an independent advertising or marketing agent if the factual information that the licensed dentist or dental hygienist provides to the independent advertising or marketing agent is accurate and not misleading, deceptive, or false.

12-35-138. Dentist peer health assistance fund.

(1) (a) Effective July 1, 2004, as a condition of renewal in this state, every renewal applicant shall pay to the administering entity that has been selected by the board pursuant to the provisions of paragraph (b) of this subsection (1) an amount not to exceed fifty-nine dollars per year, which maximum amount may be adjusted on January 1, 2005, and annually thereafter by the board to reflect changes in the United States bureau of statistics consumer price index for the Denver-Boulder consolidated metropolitan statistical area for all urban consumers or goods, or its successor index. Such fee shall be used to support designated providers that have been selected by the board to provide assistance to dentists needing help in dealing with physical, emotional, or psychological problems that may be detrimental to their ability to practice dentistry. Such fee shall not exceed one hundred dollars per year per licensee.

(b) The board shall select one or more peer health assistance programs as designated providers. To be eligible for designation by the board, a peer health assistance program shall:

(I) Provide for the education of dentists with respect to the recognition and prevention of physical, emotional, and psychological problems and provide for intervention when

necessary or under circumstances that may be established by rules promulgated by the board;

(II) Offer assistance to a dentist in identifying physical, emotional, or psychological problems;

(III) Evaluate the extent of physical, emotional, or psychological problems and refer the dentist for appropriate treatment;

(IV) Monitor the status of a dentist who has been referred for treatment;

(V) Provide counseling and support for the dentist and for the family of any dentist referred for treatment;

(VI) Agree to receive referrals from the board;

(VII) Agree to make its services available to all licensed Colorado dentists.

(c) The administering entity shall be a qualified, nonprofit private foundation that is qualified under section 501 (c) (3) of the federal "Internal Revenue Code of 1986", as amended, and shall be dedicated to providing support for charitable, benevolent, educational, and scientific purposes that are related to dentistry, dental education, dental research and science, and other dental charitable purposes.

(d) The responsibilities of the administering entity shall be to:

(I) Collect the required annual payments;

(II) Verify to the board, in a manner acceptable to the board, the names of all dentist applicants who have paid the fee set by the board;

(III) Distribute the moneys collected, less expenses, to the designated provider, as directed by the board;

(IV) Provide an annual accounting to the board of all amounts collected, expenses incurred, and amounts disbursed; and

(V) Post a surety performance bond in an amount specified by the board to secure performance under the requirements of this section. The administering entity may recover the actual administrative costs incurred in performing its duties under this section in an amount not to exceed ten percent of the total amount collected.

(2) (a) Any dentist who is a referred participant in a peer health assistance program shall enter into a written agreement with the board prior to such dentist becoming a participant in such program. Such agreement shall contain specific requirements and goals to be met by the participant, including the conditions under which the program will be successfully completed or terminated, and a provision that a failure to comply with such requirements and goals shall be promptly reported to the board and that such failure shall result in disciplinary action by the board.

(b) Notwithstanding section 12-35-129 and section 24-4-104, C.R.S., the board may immediately suspend the license of any dentist who is referred to a peer health assistance

program by the board and who fails to attend or to complete such program. If such dentist objects to such suspension, he or she may submit a written request to the board for a formal hearing on such suspension within ten days after receiving notice of such suspension, and the board shall grant such request. In such hearing the dentist shall bear the burden of proving that his or her license should not be suspended.

(c) Any dentist who is accepted into a peer health assistance program in lieu of disciplinary action by the board shall affirm that, to the best of his or her knowledge, information, and belief, he or she knows of no instance in which he or she has violated this article or the rules of the board, except in those instances affected by the dentist's physical, emotional, or psychological problems.

(3) Nothing in this section shall be construed to create any liability on behalf of the board or the state of Colorado for the actions of the board members in making grants to peer assistance programs, and no civil action may be brought or maintained against the board or the state for an injury alleged to have been the result of the activities of any state-funded peer assistance program or the result of an act or omission of a dentist participating in or referred by a state-funded peer assistance program. However, the state shall remain liable under the provisions of the "Colorado Governmental Immunity Act", article 10 of title 24, C.R.S., if an injury alleged to have been the result of an act or omission of a dentist participating in or referred by a state-funded peer assistance program occurred while such dentist was performing duties as an employee of the state.

(4) The board is authorized to promulgate rules necessary to implement the provisions of this section.

PART 2

SAFETY TRAINING FOR UNLICENSED X-RAY TECHNICIANS

12-35-201. Legislative declaration.

(1) The general assembly hereby finds, determines, and declares that public exposure to the hazards of ionizing radiation used for diagnostic purposes should be minimized wherever possible. Accordingly, the general assembly finds, determines, and declares that for any dentist or dental hygienist to allow an untrained person to operate a machine source of ionizing radiation, including without limitation a device commonly known as an "X-ray machine", or to administer such radiation to a patient for diagnostic purposes is a threat to the public health and safety.

(2) It is the intent of the general assembly that dentists and dental hygienists utilizing unlicensed persons in their practices provide those persons with a minimum level of education and training before allowing them to operate machine sources of ionizing radiation; however, it is not the general assembly's intent to discourage education and training beyond this minimum. It is further the intent of the general assembly that established minimum training and education requirements correspond as closely as possible to the requirements of each particular work setting as determined by the state board of dental examiners pursuant to this part 2.

(3) The general assembly seeks to ensure, and accordingly declares its intent, that in promulgating the rules authorized by this part 2, the board will make every effort, consistent with its other statutory duties, to avoid creating a shortage of qualified individuals to operate machine sources of ionizing radiation for beneficial medical purposes in any area of the state.

12-35-202. Board authorized to issue rules.

(1) (a) The state board of dental examiners shall adopt rules prescribing minimum standards for the qualifications, education, and training of unlicensed persons operating machine sources of ionizing radiation and administering such radiation to patients for diagnostic medical use. No licensed dentist or dental hygienist shall allow any unlicensed person to operate any machine source of ionizing radiation or to administer such radiation to any patient unless such person has met the standards then in effect under rules adopted pursuant to this section. The board may adopt rules allowing a grace period in which newly hired operators of machine sources of ionizing radiation shall receive the training required pursuant to this section.

(b) For purposes of this part 2, "unlicensed person" means a person who does not hold a current and active license entitling the person to practice dentistry or dental hygiene under the provisions of this article.

(2) The board shall seek the assistance of licensed dentists or licensed dental hygienists in developing and formulating the rules promulgated pursuant to this section.
