

## Effective Summer Rate Plus Key "Riders" for Xcel Electric Bills in Colorado--January and July 2008

January 2008 Data from Docket 071-497E and July 2008 Data from Docket 081-267E at the Colorado PUC

**Electric Bill Rate Increases Are Being Driven by Large Increases in Fossil Fuels--  
Not by Investments in Renewable Technologies or Efficiency**

**The only way to avoid future fossil fuel rate increases is to accelerate the speed  
at which we pursue renewable and energy efficiency technologies**
