1. Paragraph 8 on page 2 of this Decision reads as:

The proposed new grade separation railroad bridge pedestrian pathway is designed as a single span 78-foot box culvert structure 217 feet by 9 inches long bridge structure to connect trail connections near the Spring from Midway Boulevard and Industrial Lane. The underpass pedestrian and bikeway are proposed to have 13 feet of vertical clearance and 16 feet of clear width along the bridge structure. The proposed minimum clearances meet or exceed the minimum requirements found in Ruled 7375 and 7327 of the Commission Rules Regulating Railroads, Rail Fixed Guideways, Transportation by Rail and Rail Crossings, 4 *Code of Colorado Regulations* (CCR) 723-7.

2. Paragraph 7 states that this project connects a trail between Midway Boulevard and Industrial Lane. That is incorrect. Paragraph 8 also references Rule 7375. That is incorrect. The correct rule reference is Rule 7325. Paragraph 7 shall be amended to read as follows:
