We are asking to have this put out for a while until my brother-in-law is going to be feeling better they're not giving him much time to live we are trying to get them through this process and if we can have your help on this would be grateful but this is what they have had to say today

---

## How do they fix a weak heart muscle?

Treatment depends on the cause of the problem. **With coronary artery disease, the patient will need either a stent or coronary bypass surgery to open up the artery. If it's the valve, the patient will need a valve repair or replacement.** “All patients undergo intensive medical therapy when first diagnosed,” says Nguyen.

the muscles around your...

Can you live with damaged heart muscle? ^

**You can live with coronary artery disease, but it reduces your heart's function.** When heart muscle dies, scar tissue typically forms in the area.

If the muscle is only dormant, however, doctors can try to restore blood flow by reopening your artery, reviving the muscle and strengthening your heart's function, Dr. Feb 8, 2019
