STATEMENT

The Commission instituted rulemaking concerning rules to implement the provisions of § 40-3-104.3, C.R.S. Notice of the proposed rulemaking was issued by the Commission in Decision No. C93-756, mailed on August 11, 1993.

The Commission stated that the intent of the proposed rules is to revise existing regulations due to legislative changes in House Bill 92-1243, codified as § 40-3-104.3, C.R.S. Since House Bill 92-1243 made significant revisions to the statute which allowed gas, electric, and steam utilities to provide services under certain circumstances without regard to filed tariffs, the proposed rules were necessary to make the Commission's Rules Regulating Applications Filed in Accordance With § 40-3-104.3, C.R.S., consistent with the revisions of the statute. A copy of the proposed rules was attached to the Commission's notice of

proposed rulemaking. The statutory authority for the proposed rules found at §§ 40-2-108, 40-3-102, and 40-3-104.3, C.R.S.

The notice of proposed rulemaking was published in the September 10, 1993, Colorado Register. The Commission set the proposed rules for hearing for October 8, 1993, at 9:00 a.m. at the Commission hearing room in Denver. Written comments were filed prior to the hearing by John J. Conway, Attorney at Law, WestPlains Energy (WP), and by Public Service Company of Colorado (Public Service).

On October 8, 1993, the hearing was held as scheduled. Oral comments were made by CF&I Steel, L.P. (CF&I), Public Service, WP, and the Office of Consumer Counsel (OCC). CF&I filed written comments and WP filed corrected written comments. OCC asked for, and was granted, permission to file supplemental comments, and the other participants in the rules hearing were provided an opportunity to respond to the OCC's written comments. On October 15, 1993, OCC filed its comments and on October 20, 1993, Public Service filed its reply comments.

Pursuant to § 40-6-109, C.R.S., the record of this proceeding along with a written recommended decision are transmitted to the Commission.

FINDINGS OF FACT AND CONCLUSIONS THEREON

The participants in the rules hearing generally favored the concept of the proposed rules which is to modify the Commission's existing rules concerning § 40-3-104.3, C.R.S., in order to make the rules consistent with the changes enacted by the Legislature in House Bill 92-1243. It is found and concluded that the proposed rules should be modified as follows:

BASIS, PURPOSE, AND STATUTORY AUTHORITY

Many of the commentators pointed out that the basis and purpose statement of the proposed rules retains the old concept of "negotiate prices and terms" rather than the new statutory concept of "provide service by contract without reference to its tariffs." This suggested change is necessary to track with the statute and should be adopted.

RULE 1 - APPLICABILITY

Most of the commentators suggested that the proposed Rule 1 be changed to provide consistency with the concept of the statute which allows the Commission to flexibly regulate gas, electric, and steam utilities in certain circumstances. Accordingly, they recommended that the proposed rules language of "refrain from regulating" be deleted and that "flexibly regulate" be

substituted in order to maintain consistency with the changes in § 40-3-104.3. This recommendation will be adopted.

RULE 2 - DEFINITIONS

OCC recommended an addition of a new subsection (a) to define "Applicant." OCC recommends that the new subsection (a) should read as follows:

"Applicant": Any utility requesting an order from the Commission that invokes its authority to flexibly regulate gas, electric, or steam services in accordance with § 40-3-104.3, C.R.S.

This suggestion is well taken and should be adopted.

Proposed Rule 2(a) "Application" uses the term "refrain from regulating." Since this language does not track the statute, it should be deleted and "flexibly regulate" be added. This suggestion should be adopted.

Most of the commentators urge that the definition of "potential customer" found proposed Rule 2(d) be modified and expanded to include a person or a business who may wish to relocate into the service territory of a utility. It was also pointed out that it should be made clear that under the terms of the statute, the definition should make it clear that a potential customer can only be a potential electric or steam customer. These suggested changes should be adopted since they are consistent with the statute.

RULE 3 - APPLICATION PROCESS

The second and third lines of the opening paragraph of Rule 3.1 should state "flexibly regulate" rather than the proposed "refrain from regulating" in order to maintain consistency of the rules and conformity with the statute.

Public Service suggests that Rule 3.1, Sections (e), (f), and (g) be modified as follows:

- 3.1(e) The name of the customer or potential customer for service:
- 3.1(f) A description of the services which the Applicant seeks the right to provide to a customer or to a potential customer;

- 3.1(g) A statement of the means by which the Applicant will provide its services if it is successful in obtaining a contract with a customer or potential customer;

Public Service suggests that it is unnecessary to refer to electric, steam, or gas services since the definition of customer and potential customer and the description of services being offered are adequately defined in the OCC's suggested definition for the terms customer and potential customer in Rule 2. The suggestion of Public Service should be adopted.

WP suggests that in Rule 3.1(h)1 the term "variable cost" for electric or steam and in Rule 3.1(i)4 the term "marginal cost" should be modified to establish a consistent standard so that one form of energy may not have a competitive advantage over the other. WP also suggests that the Commission should consider using incremental costs in addition to the above two costing methodologies in determining the flexible price of the services. This suggestion should not be adopted since § 40-3-104.3(I)(A), C.R.S., refers to variable cost concerning contracts for electric and steam service and subsection II(D) refers to marginal cost concerning gas contracts.

Commentators John Conway, CF&I, and Public Service suggests that proposed Rule 3.1(h)2 be modified to add the word "decline" to describe the intention of a customer or potential customer. This suggestion should be adopted since it tracks the language of the statute.

CF&I suggests that the proposed Rule 3.1(h)3, 3.1(i)2 and (i)4 be modified to substitute the word "Applicant" for "public utility" in order to make it clear that the rule refers to the Applicant. The suggestion is well taken and will be adopted.

OCC and CF&I proposes that proposed Rule 3.1 (i)4, first sentence should be revised to read:

The price of such service is justified and is not less than the marginal cost to the Applicant.

This suggestion should be adopted.

WP commented that proposed Rule 3.2 relating to prefiled testimony and exhibits would be burdensome in the context of the application process authorized by the statute and rules. Proposed Rule 3.2 concerning prefiled testimony and exhibits should be adopted without change.

WP comments that proposed Rule 3.4 concerning the treatment of confidential information should be adopted and the confidential information should be protected under the Commission's existing procedures. The suggestion is a good one, therefore, proposed Rule 3.4 should be adopted without change.

WP comments that proposed Rule 3.5 concerning the requirement that Applicant shall furnish a copy of the application to any public utility furnishing service to the customer is unnecessary since Rule 4.1.2 gives sufficient notice. It does not appear that proposed Rule 3.5 is unduly burdensome, therefore proposed Rule 3.5 should be adopted without change.

RULE 4 - GENERAL RULES CONCERNING APPLICATIONS FILED IN ACCORDANCE WITH § 40-3-104.3, C.R.S.

Public Service comments that proposed Rule 4.1.2 concerning notice and form notices C and D should be modified to provide a five-day notice period rather than the ten-day notice period contained in the proposed rules. This suggested change is appropriate since § 40-3-104.3(1)(b), C.R.S., establishes a five-day notice period.

RULE 5 - SEGREGATION OF INVESTMENTS, EXPENSES, AND REVENUES

CF&I proposes that the word "shall" be substituted for "may" in the first sentence, third line of Rule 5.1 making it mandatory to require the utility to file with the Commission an accounting plan that segregates investments, revenues, and expenses. WP and Public Service disagree stating that § 40-3-104.3(2)(a), C.R.S., states that the Commission shall specify fully distributed cost methodology to be used to segregate rate base, expenses, and revenues associated with utility service only at the time of any proceeding in which the utility's overall rate levels are determined. Thus WP and Public Service contend that the proposed Rule 5.1 use of the permissive "may" is appropriate and consistent with the statute. It is found that the use of the permissive "may" in proposed Rule 5.1 is correct and should be adopted.

CF&I proposes that the last sentence of proposed Rule 5.1 be modified to add the words "under a contract" in order to clarify the sentence. This suggestion will be adopted.

Public Service proposes that the wording of proposed Rule 5.1 be modified to change the filing of an accounting plan to an accounting plan that generally describes how the Applicant would segregate investments, revenue, and expenses rather than requiring the actual segregation. Public Service also recommends that proposed Rule 5.2 relating to gas have a similar provision. This recommendation should not be adopted.

RULE 6 - PRICES OF SERVICES

Proposed Rules 6.1 and 6.2 are consistent with § 40-3-104.3, C.R.S., and therefore should be adopted except for clarifying changes suggested by CF&I and OCC, referring to Applicant rather than a utility and to specify that service is under a contract.

It is found and concluded that the rules as modified based on the comments submitted to the Commission contained in Appendix A, attached to this decision should be adopted.

Pursuant to § 40-6-109, C.R.S., it is recommended that the Commission enter the following order.

ORDER

THE COMMISSION ORDERS THAT:

1. The Rules Regulating Applications Filed in Accordance With § 40-3-104.3, C.R.S., Concerning the Authority of the Public Utilities Commission to Flexibly Regulate Gas, Electric, or Steam Utilities attached as Appendix A to this Decision are adopted.

IF NO TRANSCRIPT OR STIPULATION IS FILED, THE COMMISSION IS BOUND BY THE FACTS SET OUT BY THE ADMINISTRATIVE LAW JUDGE AND THE PARTIES CANNOT CHALLENGE THESE FACTS. THIS WILL LIMIT WHAT THE COMMISSION CAN REVIEW IF EXCEPTIONS ARE FILED.

8. If exceptions to this Decision are filed, they shall not exceed 30 pages in length, unless the Commission for good cause shown permits this limit to be exceeded.

These rules are issued under the authority of § 40-2-108, C.R.S., and § 24-4-103, C.R.S. The rules establish the information required by the Commission in an application filed in accordance with § 40-3-104.3, C.R.S., so that a public utility will be authorized to provide service by contract without reference to its tariffs for a gas, electric or steam customer or potential electric or steam customer under the specific conditions authorized by these rules and so that a complete application can then be processed within thirty days.

RULE 1-APPLICABILITY

These rules provide the exclusive means by which a person may seek an order from the Commission that invokes its authority to flexibly regulate gas, electric, or steam utilities in accordance with § 40-3-104.3, C.R.S.

RULE 2-DEFINITIONS

As used in these rules, unless the context otherwise requires:

Applications must be noticed to the public by the Commission in accordance with § 40-3-104, C.R.S., and Rule 63(g) of the Commission's Rules of Practice and Procedure found at 4 CCR 723-1 so persons have an opportunity to intervene.

 - 2. A customer, or potential customer for electric or steam service, has expressed an intention to decline or discontinue, or partially discontinue the services of the applicant, or that such customer will obtain alternative services if the authorization is not granted to the applicant;

If an exhibit is too large or cumbersome to prefile, the location of the exhibit shall be disclosed where parties may inspect it, and the applicant shall file ten copies of the title of each exhibit and a summary of the information contained in the exhibit.

3.2.2 Prefiled testimony or exhibits shall not be modified once filed except for typographical errors or mistakes or where all parties to the proceeding agree to the change. In the event a substantive change is made without the agreement of all parties, the Commission may consider the effect of the substantive change as a basis for a motion to continue in order to allow the Staff of the Commission and any other party a reasonable opportunity to properly address the change.

3.2.3 In the event a person intervenes in a proceeding initiated under § 40-3-104.3, C.R.S., upon notice to the applicant, either in writing, by facsimile, or by any other method, the applicant shall hand deliver or otherwise provide to the intervenor, copies of all prefiled testimony and exhibits filed in accordance with Rule 3.2.1 within two working days.

However, any delay in processing the application because applicant elected not to prefile testimony and exhibits may be proper grounds for a motion to continue a hearing date.

Rule 3.3 - Incomplete Applications

Should an application be filed which the Commission determines is not complete, the Commission shall notify the applicant within ten days from the date the application is filed of the need for additional information. The applicant may then supplement the application so that it is complete. Once complete, the application will then be processed as of the date the application is completed.

Rule 3.4 - Confidential Information

3.4.1 Any subject contract, filed with an application, shall be filed under seal and treated as confidential by the commission in accordance with § 40-3-104(3)(1)(b), C.R.S.

3.4.2 The applicant shall indicate any information which is claimed to be confidential and shall state the grounds with specificity and cite the legal authority for the claim of confidentiality in a motion for protective order. If the motion for protective order is not filed with the application, any claim of confidentiality of information filed in the application or as prefiled testimony and exhibits shall be deemed waived.

3.4.3 If an applicant contends any portion of the application, prefiled testimony, or exhibits is confidential, it shall file six copies of the application, prefiled testimony and exhibits without the asserted confidential information, together with the motion for protective order. This information will be available to the public immediately. The applicant shall also file under seal six copies of the complete application, prefiled testimony, and exhibits claimed to be confidential and the subject of a motion for protective order.

3.4.4 The motion for protective order will be decided within ten calendar days from the date the application is filed.

Response time to the motion shall be shortened to five calendar days. If the motion is granted, a protective order shall be issued as stated in Exhibit 1 to these rules unless otherwise ordered by the Commission.

Rule 3.5 ADDITIONAL FILING REQUIREMENTS

If a contract is submitted with the application, the office of consumer counsel shall treat the contract as confidential.

**RULE 4 - GENERAL RULES CONCERNING APPLICATIONS FILED
IN ACCORDANCE WITH § 40-3-104.3, C.R.S.**

Rule 4.1 - Notice

4.1.1 Section § 40-3-104.3(5), C.R.S., requires the Commission to issue its order approving or disapproving an application filed within thirty days after its filing, unless extended in accordance with that statutory section. Therefore, the Commission will issue an order granting less-than-statutory notice for all applications appropriately filed pursuant to § 40-3-104(2), C.R.S. and these rules.

4.1.2 In accordance with § 40-3-104, C.R.S., and Rule 63(g) of the Commission's Rules of Practice and Procedure, 4 CCR 723-1, the Commission will issue notice to all persons affected by any application filed under these rules in a manner similar to that stated in Form A if the application is one relating to electric or steam services, and in a manner similar to that stated in Form B if the application is related to gas services. Persons may intervene in the relevant docket within five days after the date of the notice.

4.1.3 Upon the filing of an application in accordance with § 40-3-104.3, C.R.S., the applicant must provide within three days proof of a single notice in accordance with Form C (electric or steam) or Form D (gas) in the "legal notice" section in a newspaper of general circulation. The notice shall comply in all respects with the requirements of § 40-3-104(c)(I)(D), C.R.S., unless the Commission approves an alternative means of notification. Required Forms C and D are appended to this rule. A draft copy of applicant's legal notice must be included in its application.

Rule 4.2 - Non-Action by the Commission Effect of Failure to Comply with Procedural Requirements

No application or request filed with the Commission shall be deemed granted by non-action of the Commission or by the Commission's failure to comply with any procedural requirement in these Rules except as specifically required by statute.

RULE 5 - SEGREGATION OF INVESTMENTS, EXPENSES AND REVENUES

Rule 5.1 - ELECTRIC OR STEAM.

If a utility is successful in its negotiations and enters into a contract with a customer, or potential customer, the Commission may require the utility to file with the Commission an accounting plan that segregates investments, revenues, and expenses associated with utility service provided by the contract from other regulated utility operations. In order to determine if revenues from a service provided under a contract are at least equal to the cost of service, a fully distributed cost methodology shall be specified by the Commission. If revenues from a service provided by an electric or steam utility under a contract are less than the cost of service as provided by a fully distributed cost methodology, the rates for other regulated utility operations may not be increased to recover the difference between costs and revenues.

RULE 5.2 - GAS

If a gas utility is successful in its negotiations and enters into a contract with a customer, the Commission may require the utility to file with the Commission an accounting plan that segregates investments, expenses and revenues associated with the gas utility's service by the contract to ensure that such gas services are not subsidized by revenues from other utility operations. If the Commission requires such segregation of such investment and expenses, it shall specify a fully distributed cost allocation methodology.

RULE 6 - PRICES OF SERVICES

RULE 6.1 - ELECTRIC AND STEAM

The price of any electric and steam utility service provided to a customer, or potential customer, for whom the commission has authorized the applicant to provide service under a contract in accordance with § 40-3-104.3(1)(A), C.R.S. shall not be below the

electric or steam service's variable cost of the service to the applicant.

RULE 6.2 - GAS

The price of any gas utility service provided to a customer for whom the commission has authorized the applicant to provide service under a contract in accordance with § 40-3-104.3(1)(A), C.R.S. shall not be less than the gas service's marginal cost of the service to the applicant.

RULE 7 - WAIVER OF RULES

The Commission may permit variance from these rules, if not contrary to law, for good cause shown or if it finds compliance to be impossible, impracticable, or unreasonable.
