UNION PACIFIC RAILROAD COMPANY, Complainant, v. COLORADO DEPARTMENT OF TRANSPORTATION, Respondent.	DOCKET NO. <i>12F-1215R</i>
UNION PACIFIC RAILROAD COMPANY'S FORMAL COMPLAINT	

Union Pacific Railroad, ("Union Pacific") by and through the undersigned counsel and pursuant to the Code of Colorado Regulations (4 CCR 723-1-1302), moves the Commission for an Order Compelling the Respondent, Colorado Department of Transportation ("CDOT"), to take action in the interests of public safety. In furtherance, Union Pacific states as follows:

1. Union Pacific identified significant safety issues during the diagnostic for the installation of Railroad At-Grade Crossing Protection Devices at the railroad at-grade crossing located at WCR80 in Ault, Colorado (DOT #804-860T).
2. The above referenced installation project was the subject of Weld County's Application to the Colorado Public Utilities Commission ("the Commission"), Docket No. 11A-242R.
3. Union Pacific wrote two letters to CDOT providing notification of a dangerous situation at the crossing and requesting resolution of same. Unfortunately, CDOT took no action and on August 18, 2012 an accident occurred at the crossing.
 - a) Please refer to the attached letter dated February 3, 2011 requesting that CDOT conduct a study concerning these safety issues.
 - b) Please refer to the attached letter dated October 3, 2012 and the PowerPoint Presentation addressing the need to install a traffic signal on US85 at WCR80.

WHEREFORE, Defendant Union Pacific Railroad Company moves the Commission for an Order addressing the public safety issues and the need for CDOT to install traffic signals and interconnect them with the railroad crossing at WCR80 in Ault, Colorado.

DATED at Denver, Colorado, this 21 day of November, 2012.
