RESTORATION OF SERVICE – RESIDENTIAL t

As a condition for restoration of service, customer shall be in compliance with these General Terms and Conditions and all ordinances, statutes, and other lawful regulations that apply to customer's natural gas service.

(1) If service was discontinued due to customer's failure to pay, or make arrangements to pay, for services rendered, Company will make commercially reasonable efforts to restore service to customer, within the timeframe set forth below, upon (a) customer's agreement to make payments on an installment plan or under a budget billing arrangement, (b) Company's receipt of customer's first full payment under the installment plan or budget billing arrangement, (c) Company's receipt of all applicable collection and restoration charges, and (d) Company's receipt of full payment of any required deposits. t

(2) If service was discontinued due to customer's failure to pay any amount due under its installment plan or budget billing arrangement, Company will make commercially reasonable efforts to restore service, within the timeframe set forth below, upon (a) Company's receipt of full payment of all amount due on customer's account, (b) Company's receipt of all applicable collection and restoration charges, and (c) Company's receipt of full payment of any required deposits. t

Where service has been discontinued in accordance with these General Terms and Conditions, Company will endeavor to restore service to customer within CO rules 4 CCR 723-4-4409(b) upon Company's verification that customer has remedied the cause for discontinuance and otherwise satisfies the terms for restoration, unless otherwise extenuating circumstances prevent restoration, such as the customer or their designee not being at the premises at the time scheduled for restoration. If the time of Company's restoration of service is outside of Company's normal business hours or falls on a federal holiday or weekend, Company may charge to customer's account relevant fees set forth on Sheet 17. t

COMMERCIAL DEPOSITS AND REFUNDS

A first-time Applicant for Commercial Service must deposit with Company an amount equal to Company's estimate of an average 90-days' worth of bill for the subject location, which will be based on actual previous usage for the subject location whenever possible or Company's approximation thereof. An Applicant who is a former customer of Company but who did not receive Commercial Service for at least 24 months within the last three years shall be deemed a first-time Applicant. A former Commercial Service customer of Company who previously received service at least 24 months within the last three years with a "satisfactory payment record", will not be required to make a deposit. Any Applicant for Commercial Service at one or more additional locations must deposit with Company an amount equal to Company's estimate of an average 90-days' worth of bill for each of the new locations unless they have maintained a "satisfactory payment record" on all of their other Commercial Service accounts. Any time a customer changes location, Company will review their payment record on all their accounts, and if it is not satisfactory, Company may require a deposit not to exceed an estimate of an average 90-days' worth of bill at the new location, or Company's approximation thereof. A "satisfactory payment record" means no discontinuance of service for nonpayment, and no more than two payments past due on any account during the most recent 12-month period. The above deposit requirements are subject to the following considerations:

(1) Company may accept a surety bond or an irrevocable letter of credit from a financial institution acceptable to Company in lieu of a deposit; provided that the surety bond or letter of credit is issued (i) for the amount of the required deposit; and (ii) for at least a two-year period. If a customer has not maintained a satisfactory payment record as described in the deposit refund provisions below, a surety bond or letter of credit will be required beyond two years and until such time as a satisfactory payment record is maintained.

(2) Company may process a credit check on Applicants for Commercial Service. If the results of the credit check are not satisfactory to Company, at its discretion, a deposit may be required. If a deposit is required, it will be based on an average 90-days' worth of bill for the subject location, which will be based on actual previous usage for the subject location whenever possible or Company's approximation thereof. Such deposit is not an advance payment for partial payment of any bill for service, but is security for payment of bills for service, to be applied against unpaid bills only if service is discontinued.

WEATHER NORMALIZATION ADJUSTMENT**

CALCULATION OF WEATHER NORMALIZATION ADJUSTMENT

For each billing cycle, the Weather Normalization Adjustment ("WNA") is calculated as follows:

$$WNA_i = \frac{R_i \times (DDF_i \times (NDD - ADD))}{AAU_i}$$

Where: i = The rate class to which the WNA is being applied

WNA = Weather Normalization Dollar Adjustment in cents per therm

R = Distribution Charge for the applicable rate schedule

DDF = Degree Day Factor for the applicable rate schedule and temperature zone as set forth in the following table:

Rate Name t	Degree Day Factor	Rate schedule	temperature Zone
Residential Bailey t	0.0862	Mountain t	Bailey
Residential Cripple Creek t	0.0540 t	Mountain	Cripple Creek
Residential Pueblo t	0.0829	Mountain	Pueblo West
Residential South Park t	0.0599	Mountain t	Bailey - South Park
Residential Eastern CO	0.1025	Eastern CO	Eastern CO
Commercial Bailey t	0.4299	Mountain t	Bailey - Bailey
Commercial Cripple Creek t	0.3346	Mountain	Cripple Creek
Commercial Pueblo t	0.5783	Mountain	Pueblo West
Commercial South Park t	0.2497	Mountain t	South Park
Commercial Eastern CO	0.2034	Eastern CO	Eastern CO
Large Commercial Eastern CO	2.3830	Eastern CO	Eastern CO

NDD = Normal Degree Days during the billing cycle

ADD = Actual Degree Days during the billing cycle

AAU = Average Actual Usage per customer during the billing cycle

N A T U R A L S E R V I C E
W E A T H E R N O R M A L I Z A T I O N A D J U S T M E N T**

For each billing cycle between October 1 through June 30 of each year, the WNA will be calculated as described above and multiplied by each customer's Term usage for the billing cycle to adjust for the variance between the Actual Degree Days and Normal Degree Days. The product of the WNA and the customer's Term usage per billing cycle will be reflected on the customer's bill as a separate line item. Application of the WNA will result in a surcharge on the customer's bill during warmer-than-normal billing cycles and a credit on the customer's bill during colder-than-normal billing cycles. t

DEFINITIONS t

Normal Degree Days: The average daily Heating Degree Days ("HDD") for the 30-year period ended December 31, 2017, as shown on **Attachment 1 - 5**.

Actual Degree Days: The actual HDD as published by Weather Services Corporation or such other nationally recognized third-party weather service as Company, in its discretion, may elect from time to time.

Heating Degree Days: The number of degrees that the average daily temperature is below 65 degrees Fahrenheit, based on the average of the day's maximum and minimum daily temperatures.
