8. To be acceptable, restrictions must be restrictive in nature, clear and understandable, and administratively enforceable. Both the authority and any restriction on that authority must be unambiguous and must be contained wholly within the permit. Both must be worded so that a person will know, from reading the permit and without having to resort to any other document, the exact extent of the authority and of each restriction.

Clarity is essential because the scope of an authority must be found within the four corners of the permit, which is the touchstone by which one determines whether the operation of a [common]<sup>1</sup> carrier is within the scope of its Commission-granted authority.

9. The ALJ finds and concludes that the proposed amendments are restrictive in nature, are clear and understandable, and are administratively enforceable.

10. The restrictions to the authority sought by Applicant (*i.e.*, the amendments to the Application) will be accepted.

11. Accepting the amendments to the Application has two impacts. First, the authority sought will be amended to conform to the restrictive amendments. Second, the intervention of the Intervenor shall be withdrawn.

12. Withdrawal of the interventions and dismissal of the Intervenor leaves the Application, as amended, uncontested. Pursuant to § 40-6-109(5), C.R.S., and Rule 1403, 4 *Code of Colorado Regulations* (CCR) 723-1 of the Commission's Rules of Practice and Procedure, the uncontested application may be processed under the modified procedure, without a formal hearing.

13. In accordance with § 40-6-109, C.R.S., the ALJ now transmits to the Commission the record in this proceeding along with a written recommended decision.
