**I. BY THE COMMISSION**

**A. Statement**

1. On October 15, 2004, Public Service Company of Colorado (Public Service or Company) filed Advice Letter No. 631, attached as Exhibit A. Public Service stated that the purpose of this filing is to change the Company's tariff provisions related to estimating initial and final bills that are for periods of less than a monthly billing period. Public Service requested that the tariffs accompanying Advice Letter No. 631 become effective on 30 days' statutory notice or, in this instance, on November 15, 2004.

2. Under § 40-6-111(1), C.R.S., the Commission may, in its discretion, set the tariffs for hearing which will suspend their effective date for 120 days. Section 40-6-111(1), C.R.S.,

also provides that the Commission may, in its discretion, by separate order, suspend the effective date of the tariffs for an additional 90 days. Thus, the Commission has the power and authority to suspend the effective date of the tariffs for a maximum of 210 days or, in this docket, until June 13, 2005. If the Commission does not establish new rates before the expiration of the first suspension period of 120 days, or March 15, 2005, the tariffs filed by Public Service will become effective by operation of law. If the Commission further suspends, by separate order, the effective date of the tariffs for an additional 90 days, and if no new rates are established by the Commission on or before June 13, 2005, the tariffs filed by Public Service will become effective by operation of law.

**B. Findings of Fact**

3. The Commission will set the proposed tariffs for hearing and will suspend their effective date because the rates contained in the tariffs may be improper.

4. We refer this matter to an Administrative Law Judge (ALJ) to allow Public Service to present evidence on the costs and benefits of its proposed tariffs. It may be that having to read meters in every instance of initial or final bills does not make sense under a cost-benefit analysis, or that a requirement does not make sense under certain limited circumstances (*e.g.*, the departing customer is being billed for less than ten days of the billing month, the customer requests that the meter be read, or there is not likely to be a significant risk of cross-subsidy given customer usage characteristics or a mild weather month). Given the lack of evidence on these matters, a hearing before an ALJ is necessary.

5. A pleading to intervene may be filed by any person, firm, or corporation desiring to be a party and fully participate in this proceeding, as ordered below. The filing of any other document protesting the tariffs shall not allow participation as an intervenor in this matter.

## II. ORDER

### A. The Commission Orders That:
