**COMMISSION DECISION AUTHORIZING  
NO CHANGE OF GAS RATES  
ON LESS-THAN-STATUTORY NOTICE**

---

Mailed Date: October 26, 2022

Adopted Date: October 26, 2022

**I. BY THE COMMISSION**

**A. Statements**

1. On October 17, 2022, Durango Mountain Utilities, LLC (DMU, Company, or Applicant) filed a Verified Application. DMU seeks a Commission decision authorizing it, without a formal hearing and on less-than-statutory notice, to place into effect on November 1, 2022, tariffs resulting in no change to its existing propane gas rate on file with the Commission; and that the Commission grant certain waivers from the *Rules Regulating Gas Utilities and Pipeline Operators*, 4 Code of Colorado Regulations (CCR) 723-4. The Application contains all of the materials required by the applicable Commission Rules and therefore is deemed complete.

2. The proposed tariff is attached to the Application and affects the Applicant's customers in its service area.

3. DMU acknowledges that it has read and agrees to abide by the provisions of Rules 4002(b)(IV) through (VI) and Rules 4002(b)(XI)(A) through (C), 4 CCR 723-4.

4. This Application for authority to add a new tariff or change an existing tariff is made pursuant to § 40-3-104, C.R.S., and Rule 4109(b)(II).

**B. Findings of Fact**

5. The Applicant is an operating public utility subject to the jurisdiction of this Commission and is engaged in, *inter alia*, the purchase, distribution, and sale of propane gas for domestic, mechanical, or public uses in its rate area in the State of Colorado.

6. Commission Decision No. C14-0439 issued April 29, 2014 in Proceeding No. 14AL-0127G requires that DMU request a revision to its Gas Cost Adjustment (GCA) rates to be effective on November 1 of each year. The instant filing is intended to comply with this requirement.

7. The purpose of the tariff revision of Applicant's gas rates is: (1) to effectuate no change in the level of propane gas costs charged to the Applicant based on prices to be in effect November 1, 2022 through October 31, 2023 and applied to normalized forecasted purchase and sales volumes during the same test period; and (2) to adjust for previous under- / over-recovered gas cost balances as of August 31, 2022.

8. The proposed tariffs, attached to this Decision as Appendix A, will have no change total annual revenues.

9. Pursuant to Rule 1003, *Rules of Practice and Procedure*, 4 CCR 723-1, in the Application DMU requests waivers from: (1) Rules 4604(f) and (g) concerning the presentation of GCA Exhibit Nos. 5 and 6, respectively; (2) Rule 4604(d); Rule 4604(l); and (2) Rules 4604(h)(IV), and 4002(d) concerning certain notice requirements. DMU also requests waivers through December 31, 2025, from: (1) Rules 4605 through 4608 concerning Gas Purchase Plans and Gas Purchase Reports; (2) Rule 4412 concerning Gas Service Low Income Program; and (3)

Rule 4202(a) to allow for the conversion of propane gas metered in standard cubic feet to gallons for billing purposes.

10. Pursuant to Rule 1003, *Rules of Practice and Procedure*, 4 CCR 723-1, in the Application DMU requests waivers from: (1) Rules 4604(f) and (g) concerning the presentation of GCA Exhibit Nos. 5 and 6, respectively; Rule 4604(d); Rule 4604(l); and (2) Rules 4604(h)(IV) and 4002(d) concerning certain notice requirements.

11. Rule 4604(f) and (g) of the Commission Rules require the utility to provide forecasted gas transportation demand and current gas cost allocations. Since the Company does not provide gas transportation, and has only one rate class, the requested waiver is reasonable and in the public interest.

12. Rule 4604(d) requires the utility to provide month-by-month information detailing the activity in Account No. 191, including adding interest on under- or over-recovery. The Company's revenues and deferred amounts are small the thus the interest calculation is *de minimis*.

13. Rule 4604(l) requires the presentation of net operating income for the period ending June 30. The Company requests a partial waiver of this rule in order to file net operating income at the end of its fiscal year, April 30.

14. Rules 4604(h)(IV) and 4002(d) of the Commission's Rules concern notice requirements. The Company states that their customers have primary residences outside of the Durango area and thus publication of the notice is not required as the notice will be mailed to each of their customers.

15. Rules 4605 through 4608 of the Commission's Rules concern Gas Purchase Plans and Gas Purchase Reports. The Company states it serves a limited service territory and its prices

are limited to a discrete number of available suppliers through over-the-road delivery only. The over-the-road suppliers in turn only forecast their pricing over one-year periods. DMU does not have access to gas markets.

16. Rule 4412 of the Commission's Rules concern the implementation of a Gas Low Income Program. The Company states the vast majority of its customers receive gas service to a second home and estimates that less than 3 percent of its customer use their home as a primary residence. DMU states it has not seen evidence that such a program is necessary within its service territory. To the Company's knowledge, DMU customers have not received LEAP or other assistance from Colorado agencies that support emergency assistance for low-income customers.

17. The Commission finds good cause to allow the proposed tariff on less-than-statutory notice and shall grant the requested waivers.
