ANNOUNCEMENT

COMMISSIONERS' INFORMATION MEETING

“Transmission and the Implementation of New Colorado Energy Legislation”

July 24, 2007 – Old Supreme Court Chambers at State Capitol – 9:00 am to 5:00 pm

Denver, Colorado

During the 2007 Colorado legislative session at least ten energy-related bills were approved and signed into law. These legislative initiatives will greatly affect that portion of Colorado’s energy industry regulated by the Colorado Public Utilities Commission. To mention only a few, the approved bills include:

- HB 1281 – Renewable Energy
- SB 100 – Transmission
- SB 91 – Renewable Resources
- HB 1150 – Clean Energy Development Authority
- HB 1037 – Energy Efficiency

The Commission is hosting an information meeting to develop a better understanding of the connection between electric transmission development and the developing state energy policy.

The Commission anticipates this meeting will involve representatives from across the electric utility industry, including representatives of the following groups:

- Transmission Organizations (Western Electricity Coordinating Council, WestConnect, Western Interstate Energy Board)
- Transmission Owners (IOUs, REAs, Munis, ITCs, Federal authorities)
- Transmission Customers (load serving entities, independent power producers, load management entities, and large customers)

This meeting will be organized into a series of three panels: i) bulk electric system overview and status; ii) the activities and plans of transmission owners; and iii) needs of transmission customers.

RSVP REQUESTED -- Space may be limited

IF YOU PLAN TO ATTEND, PLEASE RSVP TO JEFF HEIN @ 303.894.2534 or jeff.hein@dora.state.co.us.
